

## Career Paths in Marine and Climate Sciences

*POLMAR, GLOMAR; MarMIC, Oltech, ZMT, ESSReS, and others*

<b>Date &amp; Time:</b>	May 23, 2014
<b>Location:</b>	Haus der Wissenschaft, Bremen
<b>Language:</b>	English
<b>POLMAR credit points:</b>	1
<b>Registration:</b>	details will be announced via email in early 2014

### **Workshop content:**

The graduate programmes of marine and climate sciences in the Bremen/Oldenburg region will jointly offer a Career Day in May 2014. Invited speakers from inside and outside academia will talk about career options after graduation and pre-requisites for successful applications.

The workshop aims at introducing different job perspectives in marine and climate sciences in their widest sense. This may include jobs in industry as well as in administration, consulting or journalism. Jobs for natural scientists will be introduced as will be jobs for people with a background in social sciences.

### **Structure of the workshop:**

20 min lectures by the professionals followed by 10 min for questions and discussion. The professionals will be asked to speak about their job and about the career steps they took to get this position. Further time for discussion will be given during the coffee and lunch breaks.

### **Target group:**

PhD students and early Postdocs in marine and climate sciences.
